

Pittsford

US Route 7 Bridge #108 Replacement

Existing Bridge over the Furnace Brook

DATE: March 14, 2024

On March 4, 2024, The Vermont Agency of Transportation (VTrans) in conjunction with Belden Construction LLC began preliminary work on the replacement of Bridge #108 on US Route 7 in Pittsford over the Furnace Brook at the intersection of US Route 7 and VT Route 3. Also included in the project will be repaving of both the northbound and southbound bridge approaches, the realignment of VT Route 3 and Oxbow Road and other related work associated with the completion of this replacement. The completion date for this work is November 2025.

Prior to the start of demolition of the existing bridge, Belden Construction will set up a temporary full-load bridge on the west side of US Route 7 and a temporary pedestrian multi-use bridge on the east side of the existing bridge. In order to align the roadway onto the temporary bridge, the existing island at the intersection of US Route 7 and VT Route 3 will be removed, paved and pavement markings installed.

During the construction period, motorists should expect traffic flow to be maintained at all times. There may be situations that will call for traffic control to be present allowing for one-way alternating traffic during construction hours. Hours of operation will be from 7:00 a.m. and 5:00 p.m.

PUBLIC INFORMATION MEETING

WHEN: Wednesday, March 20, 2024 at 6:30 p.m.

WHERE: Pittsford Town Office

**426 Plains Road
Pittsford, VT 05763**
