

Notice of Road Closure

Starting at Noon on Friday June 7, 2024 and extending through Monday June 10th, there will be some significant road impacts in town as a result of the bridge work on Route 7 at the intersection with Route 3.

Route 3 will be closed to all traffic from the intersection of Corn Hill Road to US Route 7. Anyone wishing to travel from the south to the north through Pittsford is strongly advised by Vtrans to take US Route 4 to Route 7 and head north or take Business Route 4 (West Street in Rutland City) and head north on Route 7. Conversely, if heading south, the same roads are strongly encouraged.

Also, there will be road closures of the south end of Arch Street by St. Alphonsus Church as well as Oxbow Road as needed during this timeframe. US Route 7 will also be down to one lane during this construction with police providing traffic control.

If you must travel through this area, please reduce your speed, stay off your electronic devices, remain alert for any changes in the traffic pattern, and obey all directions from traffic control.

The roadway is anticipated to be back open by the morning commute on Monday Morning.
