October 6, 2025

To Residents of Terounzo and Pat Lee Drive,

Starting October 14, 2025, the Town of Pittsford Water Department, with the assistance of the Highway Department, will be replacing the water line on Pat Lee Drive. Please be aware that the construction will be occurring between 7:00am and 6:00pm. Access to Pat Lee Drive may be limited due to the narrow nature of the roadway. There will be one day that Terounzo Road will not be fully accessible from both sides, as there needs to be a new water main tapped into the water main on Terounzo Road.

This construction is expected to last the week of October 14th-17th. We will notify you if there are further delays due to weather or unexpected occurrences.

Please feel free to call or email if you have any questions about this project. I can be reached at (802) 483-6500 x 200 or via email at manager@pittsfordvermont.com.

Thank you for your time.

Ann Reed
Interim Town Manager
